HISTORIC AMERICAN BUILDINGS SURVEY

EARICKSON-HARRISON HOUSE

HABS No. MO-1482

Location: Two miles south of Glasgow, Glasgow vicinity, Howard County,
Missouri

HISTORICAL AND ARCHITECTURAL INFORMATION

The following information was recorded by Alexander Piaget and Charles van Ravenswaay at the time the photograph was taken:

Built ca. 1835.

Built by Dick Earickson, son of Mr. Peregrine Earickson whose home still stands not far away. The one story wing is the oldest portion of the house. New concrete porch replaced a small and rather simple portico. Front entrance, which included elaborate leaded work in the original fan light, was destroyed by fire, but the frame and the doors are original. The panelling of the doors and the narrowness of the doorway are unusual in this locality. Detailing on the front doorway and about the front trim of the house is repeated on the interior door frame. It is duplicated in the Wilcox House (HABS No. MO-1306). Back hall doorway is of the same size and design as the front doors to the Burkhardt (HABS No. MO-243), Chilton (HABS No. MO-237), and Scott-Kingsbury (HABS no. MO-238) Houses.

PROJECT INFORMATION

The Piaget-van Ravenswaay Survey consists of a number of photographs, primarily of sites and structures in Missouri, which were taken before 1938 by Alexander Piaget and after that by Paul Piaget, both in conjunction with Charles van Ravenswaay. Photographs of buildings were incorporated into the HABS collection in 1985 by Laura Rupp and in 1986 by Deborah Fulton, HABS historians. A master list is available in the ~~MO-1800~~ records for MO-1800.
